

ABOUT THE WINES

“BACCHUS”

Dominique Bouchet, big fan of Champagne for its elegance, its flavors and all the luxury it represents, also gives a lot of importance to wines.

Overhanging the dinning room, you could find a classic wine cellar made of vintage bricks. As the wine is an integral part of the French Heritage, Dominique was truly excited by building an original cave.

Only for aperitif or dessert, but also for entire meals, wine lovers could enjoy a special wine pairing menu from all the French Region.

Unique in the earth of Tokyo, you will have a great experience fulfilling all your senses.

Aside from a very select wine list, Dominique Bouchet has also his original Champagne (4 cuvées) made by Pierre Mignon in Le Breuil.
